

ASM FELLOWS' LECTURE

RENEWABLE ENERGY TECHNOLOGY Sustainable Path for a Carbon Free Future

by Professor Dato' Dr Kamaruzzaman Sopian FASc
ASM Fellow, 2013

LOOKING FOR GREEN SOLUTIONS TO OUR ENERGY NEED

by Professor Dr Hamdani Saidi FASc
ASM Fellow, 2013

Energy is required in almost every aspect of human activities and national development. The issues of increasing fossil fuel price, energy security and climate change have important bearings on sustainable development of any country. The gap between the demand for energy and production of fossil fuel in Malaysia is widening. The need for new energy sources has never been greater, and are we ready for this?

FREE ADMISSION!!

30 Oct 2013; 9.30 am
Function Hall, Academy of Sciences Malaysia
20th Floor, Menara Matrade, Jalan Duta
