

**HELP US
MAKE IT
HAPPEN!**

WHAT IS MESYM.COM?

MESYM.com is a platform for environmental movements in Malaysia. It is a central hub for information on who's doing what - when, where, why and how.

This is a space for environmentalists to post their profiles, events, projects, stories, discussions, announcements and resources. With this information gathered at one spot, it is easier for people to find out and participate in existing movements, or start their own if they feel inspired to.

There are many good actions being done out there, and many people fighting the good fight. Our goal is to bring them together. We connect the green dots. ●●●

WHAT DO WE NEED FUNDING FOR?

- Hire writers to produce quality content
- Run environmental competitions in schools
- Organize workshops
- Upgrade the website
- Many more!
